

RESEARCH INTERESTS

My research aims to develop **human-friendly AI agents endowed with social intelligence**. Toward this goal, I have worked on multimodal agents, evaluation methods for social intelligence, and the construction of benchmarks and large-scale synthetic datasets to model desirable human-like behaviors.

EXPERIENCE

Myongji University Assistant Professor Artificial Intelligence Major, College of AI · SW Convergence	Seoul, South Korea Mar 2026 – Present
Pohang University of Science and Technology Postdoctoral Researcher Data Intelligence Lab	Pohang, South Korea Sep 2025 – Feb 2026
Yonsei University Visiting Scholar Data & Language Intelligence Lab <i>Conducted research on timing-aware responses of open-domain dialogue systems</i>	Seoul, South Korea Jan 2024 – Aug 2025
Scatter Lab, Inc. Machine Learning Researcher (full-time) <i>Contributed to the development of multimodal generative models for Luda Lee and Zeta</i>	Seoul, South Korea Feb 2022 – Dec 2023
Scatter Lab, Inc. Visiting Researcher <i>Contributed to the development of response ranking models for Luda Lee</i>	Seoul, South Korea Aug 2019 – Feb 2022
Pohang University of Science and Technology Research Intern <i>Developed a sentiment analysis web demo for online forums</i>	Pohang, South Korea Aug 2016 – Feb 2017

EDUCATION

Pohang University of Science and Technology Ph.D. in Computer Science and Engineering; GPA: 3.95 / 4.3 <i>Evaluating and Improving Human-like Characteristics of Social Companion Chatbots: On Conversational Understanding, Multimodality, and Temporal Awareness</i> <i>Advisor: Prof. Hwanjo Yu</i>	Pohang, South Korea Feb 2017 – Aug 2025
Pohang University of Science and Technology B.S. in Computer Science and Engineering; GPA: 3.57 / 4.3	Pohang, South Korea Mar 2011 – Aug 2016

PUBLICATIONS

Information Sciences, May 2020

TEACHING

Big Data Programming, Advanced Natural Language Processing
Instructor

Spring 2026

Programming & Problem Solving
Teaching Assistant at POSTECH

Fall 2018

Computer Architecture
Teaching Assistant at POSTECH

Spring 2018

PROJECTS

- **Agent-driven Text-to-SQL (Inoberry Inc., 2025)**

Led project on Text-to-SQL in insurance domain

- **Multimodal Generative Language Model (Scatter Lab Inc., 2021–2022)**

Led project on conversational image captioning for Luda Lee

- **Response Selection with Ranking Models (Scatter Lab Inc., 2019–2020)**

Developed response ranker for retrieval-based dialogue systems

- **Image Generation with Diffusion Models (Scatter Lab Inc., 2023)**

Led project on image modeling for characters in Zeta

- **Conversational Language Modeling (Scatter Lab Inc., 2020–2021)**

Developed response generation model for Luda Lee

- **Power Consumption Optimization for HVAC Systems (POSTECH, 2018–2019)**

Developed an initialization technique for ML-based systems

Sentiment Analysis on Web Forums (POSTECH, 2016–2017)

- Developed a Django-based web demo to visualize analysis

HONORS AND AWARDS

3rd Place, Poster Award

Jun 2022

Presented as co-author at POSTECH×NAVER AI DAY

ACADEMIC SERVICE

Reviewer

Dec 2024 – Present

ACL Rolling Review, AAAI'26, ICMR'26
